SPEED YOUR OUTPUT

WITH TOTAL CONTROL OF YOUR BUSINESS INFORMATION

For any size business, department, workgroup or small office, document demands keep rising – and your old printer/copier can only carry you so far. Konica Minolta's bizhub 364e, 284e and 224e provide the extra power and network-ready productivity you need to print faster, move information more quickly, and do more work in less time at lower cost – all with touchscreen control that's as easy as operating a familiar tablet.

bizhub 224e

With three models to choose from the bizhub 364e series can provide the right document solution for any size business.

bizhub 284e

bizhub 364e

Performance to meet the needs of your workflow.

In today's fast-moving world, the bizhub 364e, 284e and 224e give you the speed and flexibility to meet increasing workflow demands and take advantage of opportunities that won't wait. You'll have print/copy output at up to 36 ppm (364e), 28 ppm (284e) and 22 ppm (224e) and first-copy output in as little as 7 seconds to avoid long lines at your bizhub. Microsoft Office Open XML provides fast native printing in X-series formats: DOCX, PPTX, and XLSX. You can even print from thumb drives with a convenient front-panel USB port. And Konica Minolta's SoC (System on Chip) design minimizes power consumption to help control your costs.

The bizhub 364e Series incorporates Konica Minolta's exclusive bizhub OP (Open Platform) technology to enable expanded functionality. Our Emperonᵛ print system provides built-in print control, with PCL6/PS3 emulation and native XPS functionality all at no extra charge. Universal printer drivers let you manage your print output using standard, familiar commands, so even first-time users can be more productive right from the start.

The bizhub 364e series offers an unsurpassed array of scanning and finishing features and benefits to bring information into your workflow with greater speed and flexibility.
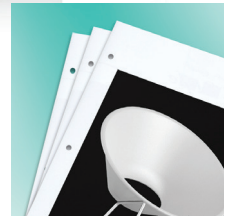

Fast scanning and faxing to speed information to its destination.

In addition to high-speed B&W output, the bizhub 364e, 284e and 224e offer the flexibility to fit your scanning needs. Their optional dual scan document feeder can scan and digitize both sides of the page in a single pass at up to 160 originals per minute – a real advantage for meeting tight deadlines.

With fast scanning to multiple destinations, you can capture and distribute information in a single easy step. Share information via email, FTP, and SMB, scan documents directly to User Boxes for individuals, departments and workgroups – and use Scan-to-Me and Scan-to-Home capabilities to send scanned images to your existing network repositories. TWAIN scanning from PCs provides a smooth interface with industry-standard scanning solutions for legal, educational and healthcare environments.

With the bizhub 364e Series, you can select from a wide range of scan formats: PDF, Compact PDF, Searchable PDF, PDF/A, TIFF, JPEG, and XPS (some formats are optional). WebDAV support makes it easy to manage server files and folders. A Gigabit Ethernet port speeds communication with your network to keep jobs moving – and Distributed Scan function sends documents directly to a "Scan Server" set up with instructions you can customize for your workflows. The bizhub 364e, 284e and 224e also provide built-in 250 GB hard disk drives for convenient on-board document storage, making reprints quick and easy.

To enhance your productivity, an optional Super G3 Fax Kit with support for up to four fax lines eliminates the need for a stand-alone fax machine.

Touchscreen control to make everyone more productive.

The bizhub 364e Series incorporates many powerful functions – but commanding all this power is as simple as operating a familiar tablet. You can flick, drag, double-tap, pinch in and pinch out, rotate images and more, all on a large color touchscreen with transparent menus and icons you can customize for your needs. To bring up the menu you want, simply flick your finger across the screen.

Soft keyboards provide quick and simple numerical entry. Electrostatic keys provide light and sound feedback, with six sound settings to suit any office environment. There's even an optional Voice Guidance system to make the powerful functions of the bizhub 364e, 284e and 224e easy to control by the visually impaired.

Enhanced capabilities for in-house, on-demand printing.

To meet a wide range of job requirements, the bizhub 364e, 284e and 224e can reproduce up to 11" x 17" originals on oversized sheets to preserve margins and crop marks. You'll also have thumbnail preview capability, to check files before you print and reduce the chance of errors or reprints that waste time and paper. And with Tab Printing support, you can print tabbed pages from the multiple bypass tray and use the interleave function to insert tabs within the body of your document – making it easy to produce training materials, human resource packets, legal or educational binders and more.

The bizhub 364e series gives users the flexibility to configure each MFP to meet their needs, with paper capacity that can be increased to a maximum of 3,650 sheets by adding a Large Capacity Cassette – plenty of paper for long unattended print runs. Duplex printing at full rated print speed saves paper by printing two-sided pages without slowing down your output.

Modular, scalable auto-finishing options let you print on demand with right-size cost-efficiency. The FS-534 50-sheet staple finisher supports an option for hole punching and is available with or without saddle-stitch and folding functionality for booklet making. The compact FS-533 inner finisher provides 3-position stapling of up to 50 sheets and electronic sorting in a small footprint to save space.

GROW YOUR BUSINESS
WITH SOLUTIONS AS CLOSE AS YOUR BIZHUB TOUCHSCREEN

To stay competitive, every business works to keep ahead of the curve – and the bizhub 364e, 284e and 224e can boost your productivity by integrating hardware and software control at your touchscreen. For general business as well as the specialized needs of healthcare, legal, educational, government and other applications, you'll have more power to capture data, share information and interface with industry-standard content management solutions, off-site cloud services and mobile professionals on the go.

With modular design, customized functionality and automatic interface, PageScope Enterprise Suite adapts to the needs of your enviroment – and starts saving you money immediately.

Handling content with the efficiency of large enterprise organizations.

In general business and corporate applications, controlling the flow of information can be the key to higher productivity – and profitability. Konica Minolta provides seamless integration with comprehensive Enterprise Content Management (ECM) systems to manage scanned documents throughout your organization. Cost-effective electronic forms can replace paper forms, saving space and making updates easy.

To speed the flow of information, you have the benefit of a Microsoft SharePoint Server connection for access to cloud storage as well as PageScope Mobile for printing from mobile phones. You can also take advantage the bizhub Connector for Google to bring the power of Google Drive and Gmail directly to your bizhub control panel.
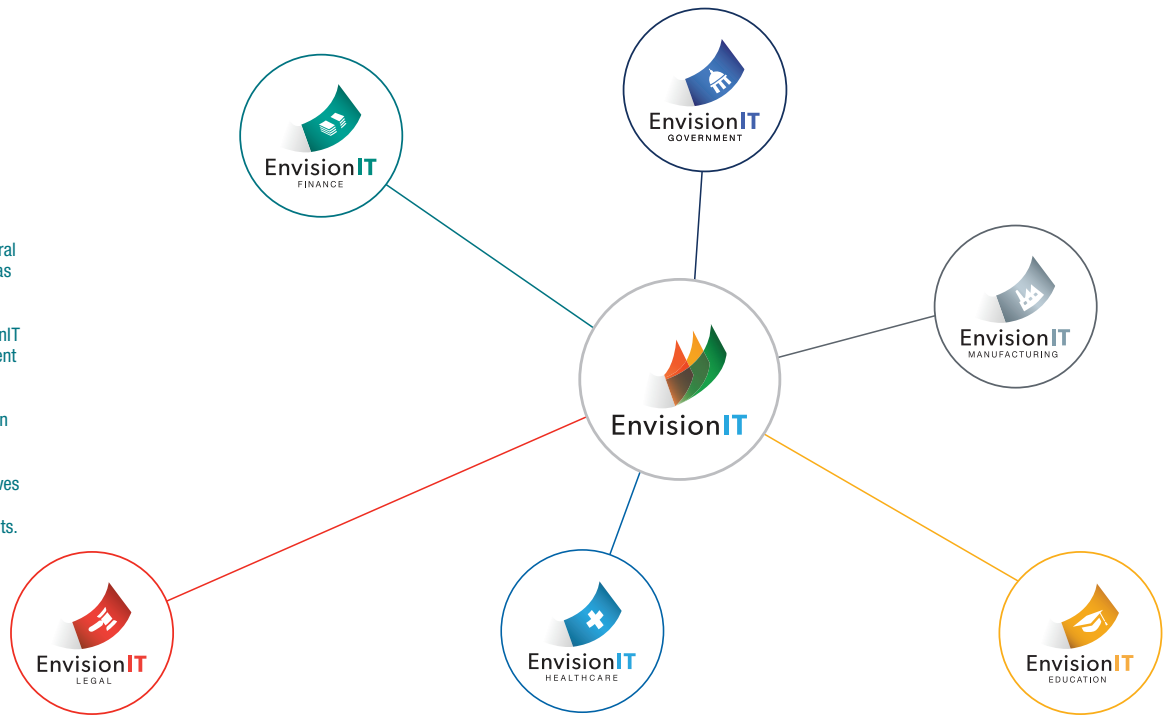

For specialized professional applications, document management demands can be even more complex – so our exclusive bizhub Integrated Solutions Technology (bEST) design provides seamless integration with industry-standard software, allowing you to control 3rd-party solutions directly from your bizhub 364e/284e/224e touchscreen panel. And Konica Minolta's EnvisionIT initiative provides powerful, focused solutions targeted to professional needs in today's fast-changing world.

The power of PageScope for managing your bizhub.

PageScope Web Connection enables users or administrators to check operating status right from their local browser. PageScope NetCare Device Manager enables administrators to configure multiple bizhub units from a single point to simplify IT administration. While print jobs are in progress, PageScope Print Status Notifier provides automatic alerts to speed your workflow.

And there's more. PageScope Enterprise Suite version 3 enables you to securely authenticate users, provides secure print release anywhere on your network and allows you to restrict or limit access to specific functions. This powerful software incorporates the ability to import/export pre-defined templates, including commonly used network settings, eco-friendly settings, and automatic MFP registration and remote firmware updates that you can schedule during non-business hours.

EnvisionIT:
Konica Minolta's total, end-to-end approach to general business as well as legal, educational and healthcare demands. EnvisionIT combines intelligent design, enhanced performance and proven reliability in a powerful vision that speeds your output and improves workflow while reducing your costs.

EnvisionIT Legal: handling caseloads for higher productivity.

Legal providers with rising caseloads need new ways to handle documents, create searchable text files, perform Bates stamping, annotation, redaction and other essential tasks – and give attorneys access to case files through mobile devices. Konica Minolta does it all.

The bizhub 364e Series gives you a seamless interface with industry standard software for managing case files and preparing information for ECM or eDiscovery offerings. Konica Minolta's own Dispatcher Phoenix Legal software helps you streamline processes such as Bates Stamping, redaction and PDF/A conversion. We are a trusted provider to over 5,000 law firms in the U.S., serving the document and IT management needs with document management and cloud-based solutions that control costs and protect attorney-client confidentiality.

EnvisionIT Healthcare: proven expertise in medical applications.

Healthcare providers demand fast, integrated workflows – and Konica Minolta MFPs integrate with back-end EHR systems so patient records can be easily accessed, scanned and printed.

Konica Minolta is the provider of choice for over 8,000 healthcare facilities across the nation – combining the intelligence of the bizhub MFP design with more efficient ways to digitize and share patient records, while maintaining security to meet HIPAA and AARA/HITECH mandates and reducing operating costs by managing document workflows more efficiently.

EnvisionIT Education: stretching budgets with straight-A performance.

Educators in K-12 schools, school districts, colleges and universities are all facing the challenge of doing more with less – managing student records, simplifying the process of testing and grading, recovering costs by charging for prints and copies, and improving system-wide and campus-wide security.

At a time of rising costs and shrinking state and local budgets, Konica Minolta EnvisionIT Education solutions help improve student performance, increase teacher efficiency and make administrative procedures more cost-efficient to stretch limited budgets. Our integrated solutions include cost recovery for schools and libraries, testing and grading from the control panel of your bizhub MFP, analytics for assessing student progress, advanced printing and scanning solutions for preparing course content, and document handling systems that safeguard student records while reducing energy costs and protecting the environment.

PLAN
YOUR STRATEGY
AND SIMPLIFYING IT MANAGEMENT TO REDUCE COSTS

Adding the bizhub 364e Series to your fleet gives you power, performance and reliability you can count on. And Konica Minolta can also grow your business with proven expertise in document distribution, infrastructure management and IT administration. Our integration of products, solutions and services can help you control costs, increase output and strengthen your competitive edge – while maintaining the enhanced security that protects your valuable assets in the networked era.

Konica Minolta Optimized Print Services lowers costs and improves workflow efficiency.

Improving IT administration and providing expert support.

If the rising cost of IT management is a growing concern, Konica Minolta can help you take command of your IT administration in a wide array of key areas: right-sizing your fleet to eliminate underutilized devices that waste energy, improving the performance of your network, enhancing your document security procedures, managing your infrastructure and maintaining your system with remote diagnosis and on-site service.

We can also provide expert support for your migration to cloud-based services that will drive future growth – increasing your uptime performance, maintaining continuity of services, and improving cost-performance due to outsourcing your IT infrastructure. In fact, we can help you coordinate and execute a total IT strategy for increasing the value of your document workflow processes – including migrating to cloud services for immediate data backup, storage and retrieval of business documents, email messages, proposals, invoices, compliance paperwork and more.

With years of experience, our professional IT services team has helped thousands of businesses take control of their IT environment without increasing their payroll. As a one-point source for managing change and measuring results, we can provide a scalable, end-to-end solution that frees you to concentrate on achieving your business and professional goals in confidence that your IT needs are in expert hands.

Konica Minolta solutions for high-quality, low-cost managed printing.

Along with Konica Minolta's unsurpassed array of integrated software Konica Minolta's Optimized Print Services (OPS) program combines consulting, hardware and software implementation with workflow management, automated services and supplies – all to lower your costs and improve the efficiency of your workflow.

Our OPS initiative links three essential business functions: consulting, implementation, and management. With this comprehensive approach, Konica Minolta provides continuous OPS services that focus on fleet, process, finance, security and green initiatives. Our OPS solution uses advanced metrics to analyze your current print environment, optimize utilization of your fleet, visualize your workflow and improve print processes – even modify employee behavior to save energy, reduce waste and choose the most economical output devices and formatting options.

bizhub MarketPlace

On-screen apps and i-Options for higher productivity.

With the bizhub 364e Series, you'll have access to another exclusive Konica Minolta advantage: downloadable apps* to enhance your personal and professional productivity, available online at the bizhub MarketPlace. The growing list of downloadable apps includes bizhub Connector for Google and Connect to Microsoft Sharepoint, to browse, print, preview and upload documents directly from your bizhub. The bizhub SECURE Notifier displays your MFP's security status, giving you peace of mind. And the Corporate Announcements app helps you spread the word consistently and cost-efficiently throughout your organization.

Konica Minolta's i-Option Kits can increase the power of your bizhub 364e, 284e and 224e with specialized functions to serve special needs. LK-101 v3 gives you access to the Internet from your bizhub MFP control panel. LK-102 v3 combines PDF/A (1a/1b) formatting, Linearized PDF support, AES 128-bit PDF encryption and Digital IDs, signatures and passwords to meet demanding security standards. You can add LK-104 v3 for Voice Guidance operation, LK-105 v3 to create Searchable PDF files and locate specific text references, and LK-106, 107 and 108 for Bar Code Font, Unicode Font and OCR Font support.

The new LK-110 i-Option kit lets you create or convert documents to the various Microsoft Office Open XML file formats you need and incorporates LK-102 v3 and LK-105 v3 functionality. And LK-111 provides ThinPrint support – enabling the bizhub 364e, 284e and 224e to print in ThinPrint environments without additional hardware.

Enhanced security to protect documents and devices.

The bizhub 364e, 284e and 224e are designed to meet strict ISO 15408 and IEEE 2600.1 security standards (in evaluation*). They incorporate a comprehensive array of standard safeguards as well as offering advanced security options like Biometric Authentication and input for a wide variety of standard ID cards: HID IC Cards, Magnetic Stripe Cards and CAC/PIV Card* systems for the U.S. Federal Government.

Secure Print enables users to release print jobs on demand, so documents never wait in output trays where they might be seen by anyone who passes by. As further protection for sensitive information, encrypted PDF workflow safeguards data passing between your bizhub MFP and networked PCs. IP filtering registers IP addresses of the PCs on your network. An optional Copy Guard Kit prevents unauthorized users from copying or distributing sensitive or confidential documents. You can also take advantage of bizhub SECURE: lock-down safeguards to prevent unauthorized operation of your bizhub MFP, all built-in and activated by your Konica Minolta service provider.

HDD Lock applies password protection to your bizhub 250 GB hard disk drive. The Job Erase function automatically overwrites your HDD up to three times every time a job is performed. When you move your bizhub device to another location, HDD Sanitizing can overwrite data in eight different modes so sensitive information will not be compromised. These comprehensive overwrite methods meet United States DoD, NSA and other international standards.

Biometric Authentication, HID Proximity Cards, and other powerful options guard your bizhub from unauthorized use.

# FOR ALL YOUR DOCUMENT NEEDS

COUNT ON KONICA MINOLTA.

Konica Minolta Business Solutions U.S.A., Inc. is a leader in advanced document management technologies and IT Services. The company focuses on complete business solutions including production print systems, digital presses, multifunctional products (MFPs), managed print services, vertical application solutions and related services and supplies. We are proud of our record of achievement – and we invite you to learn first-hand why you can always count on Konica Minolta. For more information, please visit: **www.CountOnKonicaMinolta.com**

Universal access for section 508 compliance and environmental protection.

Konica Minolta products and solutions are developed from the ground up for Section 508 compliance: accessibility for everyone, regardless of age, gender, stature of special needs, and usability by all, with comfortable and intuitive operation. The touchscreen control panel of the bizhub 364e Series tilts for greater visibility from any angle. Control LEDs and icons are brighter and easier to see. Paper drawers open from the front with smooth-sliding action. And front access makes toner easy to change.

The bizhub 364e, 284e and 224e are EPEAT-Gold Certified and achieve among the lowest power consumption rates of all MFPs in their class. Our unique Eco-indicator enables you to monitor paper, toner and energy usage by device, account or end-user to promote greater cost-consciousness.

Our Clean Planet program also makes recycling quick, simple and cost-free for all your Konica Minolta consumables: toner cartridges, imaging units, waste toner bottles, developer units and drums. We provide free return cartons with postpaid UPS labels that make the recycling process easier than ever. For mid-sized customers, Konica Minolta can provide recycling boxes designed to hold 10-15 consumable items. For high-volume users, delivery and pickup arrangements can be made for bulk shipping containers.

Konica Minolta's exclusive Simitri® HD toner formulation uses biomass plant-based materials to reduce environmental impact. And our Eco Vision 2050 project is committed to reducing CO_2 emissions by 80% over 2005 levels – minimizing greenhouse gases that may contribute to global warming.

Dow Jones Sustainability Indexes

CUSTOMER LOYALTY ENGAGEMENT WINNER

Konica Minolta has won numerous awards and recognition including being recognized as the #1 Brand for Customer Loyalty in the MFP Office Copier Market by Brand Keys for six years in a row. For the third consecutive year, Buyers Laboratory LLC (BLI) has named Konica Minolta as the winner of its "A3 MFP Line of the Year" award.

Konica Minolta also received "Document Imaging Solutions Line of the Year" recognition from BLI in 2012. Konica Minolta, Inc. has also been named to the Dow Jones Sustainability World Index for two years in a row in recognition of the company's economic, environmental and social performance.
